

Phoenix Super Chevy Show Autocross to Feature New Pro Touring Packages from Total Cost Involved

(Sept. 2, 2010) Total Cost Involved, Wilwood Disc Brakes, and Currie Enterprises have teamed up again to sponsor an Autocross event on the Super Chevy Show series. The three companies combined resources to kick the season off at the Las Vegas Super Chevy Show back in March, and will now host the Autocross function at the season ending event at Firebird Raceway in Phoenix, October 22-24. The promotional focus for the three performance oriented companies will be the new Pro Touring suspension packages that Total Cost Involved has recently introduced.

There is no better way to test great handling and suspension components than to put them to the test on an Autocross course. Sal Soloranzo, General Manager of Total Cost Involved stated "we can't wait for the event to get here. We have some great new Pro Touring suspension packages with the latest greatest Currie F9 rear end housings and Wilwood Dynapro Big Brake systems for Pro Touring style cars."

The Currie Enterprises 9" rear end component is currently considered the toughest fabricated sheet metal housing on the market. That product combined with top of the line forged brake components from Wilwood Disc Brakes and Total Cost Involved engineering can help turn an average Muscle Car into Pro Touring ace.

Sal added that "many time Autocross World Champion, Mary Pozzi, will be driving our test vehicles on the Autocross course in Phoenix and we encourage everyone to come and try to beat her times and steal her crown".
